HEALTH

**PREMUS, W DPI, & MYOPAIN 2023** calls for nominations for innovation awards for established startups, aspiring healthcare entrepreneurs, researchers, and teams with solutions and technologies to prevent WRMSDs and Work Disability.

During the PREMUS, W DPI, & MYOPAIN 2023 Conference, short-listed finalists will have the opportunity to pitch their ideas and solutions in a competition in front of professionals, institutional and industry leaders, and venture capital firms for a chance to win prizes, mentorship, and exposure to advance their innovations.

The event is open to all innovators worldwide attempting to prevent WRMSDs and work disabilities

**If you have a fantastic and innovative idea, including a product, service, or any other solution, submit your pitch today.**

### **WHO CAN PARTICIPATE IN THE INNOVATION AWARDS?**

- Anyone over age 18 or an established start-up, including students, clinical and research faculty, engineers, designers, developers, business leaders, and patients/workers
- We are accepting all submissions from the idea stage to advanced stage start-ups. You don't need to start a company, have a prototype, or have IRB approval.
- Anywhere in the world

## HOW DO THE INNOVATION AWARDS WORK?

All pitch decks submitted by the deadline will undergo review by the judges. The short-listed finalists will be invited to pitch their solutions in front of a live judging panel and audience on **Friday, September 22, 2023**, at the PREMUS, WDPI, & MYOPAIN 2023 Conference in Bengaluru, India. The presenter must register for the conference as a delegate before **May 31, 2023**. Virtual presentations are not allowed.

At the live event, Finalists will have 10 minutes to pitch

Followed by 5 minutes for questions from the judges.

Finalists must emphasise their vision, stage of development, and proposed roadmap.

The winners will be announced on **September 24, 2023**, during the closing ceremony, and the awards will be presented in person.

## WHAT ARE THE JUDGING CRITERIA?

The focus of your idea/team/start-up must be on addressing the prevention of WRMSDs and work disability.

### POTENTIAL FOR IMPACT (25%)

Each submission will be rated on the strength of its potential to improve workers' health, specific to the prevention of WRMSDs and work disability.

Applications will be rated on their ability to address a specific need and potential for further development.

Wide application across the world, including different economies and work conditions, especially the new ways of working, such as remote or hybrid work.

### SOLUTION FEASIBILITY (25%)

The solution will be rated on the presented market analysis and proposed plan for development, cost-effectiveness, growth, scale, and sustainability.

### DESIGN AND USABILITY (25%)

Each submission will be rated on how well it addresses the specific needs of workers in various industries.

User-friendliness and human-centred design.

Ease of accessibility to a range of workers and on various platforms.

### CREATIVITY AND INNOVATION (25%)

Each idea will be rated for the degree of uniqueness, creativity and innovation compared with existing solutions.
